DEBRIS DIVERTER

FOR HAND PALLET TRUCKS

DIVERT DEBRIS AWAY FROM YOUR WHEELS

A unique attachment that diverts debris away from the steer tires on a hand pallet truck, the Debris Diverter allows smoother, easier, more reliable travel in a variety of environments.

EASIER STEERING, SMOOTHER TRAVEL.

By preventing foreign objects from getting under the steer tires of hand pallet trucks, the Debris Diverter delivers more consistent, reliable travel for easier operation and more precise, predictable travel. A Lift-Rite exclusive, the attachment is available on most new models in our line or as a retrofit for virtually any pallet jack in your fleet.

Diverts debris from the steer tires for smoother operation and reliable travel.

Transferable between trucks for greater flexibility and cost efficiency.

Unique design allows for uninterrupted travel over various surfaces and inclines.

Quickly and easily attaches to most brands of hand pallet trucks.

Due to continuous product improvement, specifications are subject to change without notice or obligation. Some systems and features shown are optional at extra cost. Lift-Rite is a U.S. trademark of Lift-Rite.
